-- fill comments here --

What is the situation of your paper?

- finished,
- almost finished
- still under writing
- missing several pages
- only half-written
- just started
- not yet started

Final check of your paper:

- Abstract
- ACM classification
- Table of content: page numbers
- Reference list layout
- Citations for references, no reference without citation
- Language: spell check
- Final read through (if corrections, read again)

Step 1: Scientific writing writing with support of small team and TA Steps 2 & 3: seminars Using and improving writing **Oral presentation** Final step: MSc thesis Individual work about unique topic Discussion support from supervisor One (or two) draft feedback

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

-Learning objectives of a seminar: http://www.cs.helsinki.fi/en/node/61694/matriisi

- Two themes:
 - Written scientific communication
 - Oral scientific communication

Duration: 2 periods, one whole term/semester Number of participants: 12 students

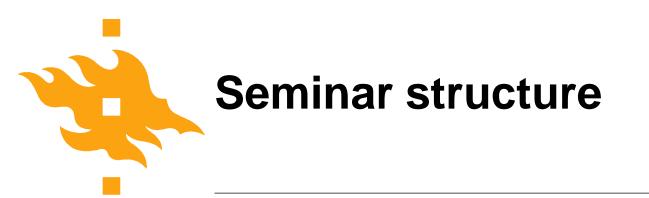

Application period for seminars:

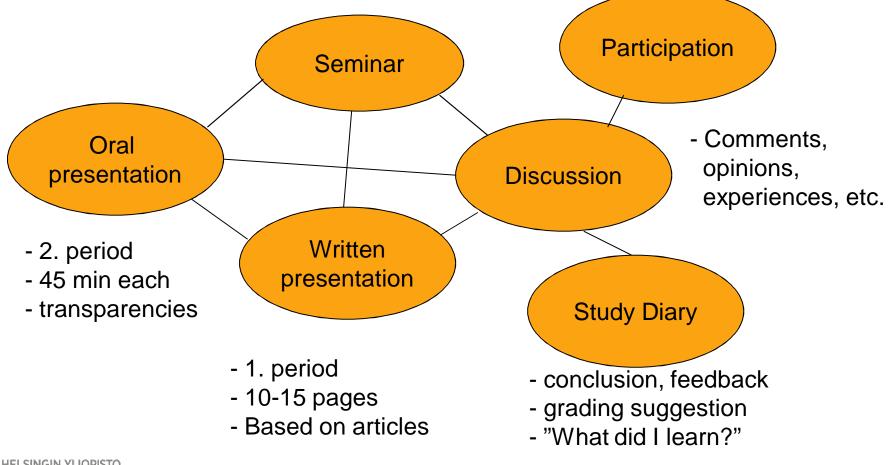

- -For Spring term seminars: early November
- -For Fall term seminars: early May

-Teachers select students based on the applications

- suitability of background, progress of studies, ...

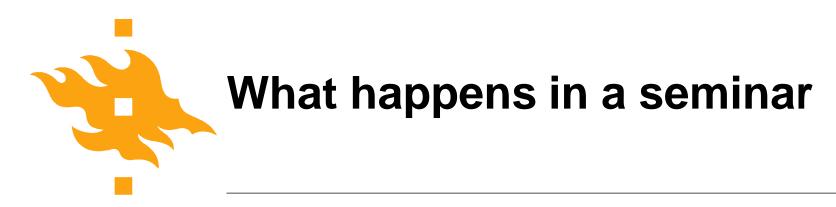

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

Step 1: Written report

- similar to the one in Scientific Writing course
- submission deadline given by the leader

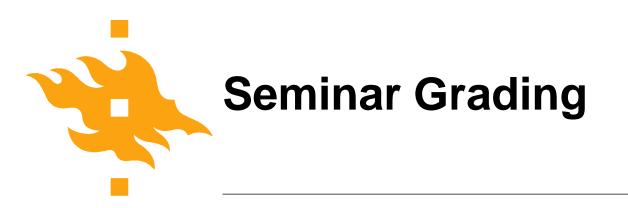

Step 2: Oral presentation

- presenting the paper content to participants
- duration given by the leader (1/2 2 hours)

Step 3: Opponent for the presentation

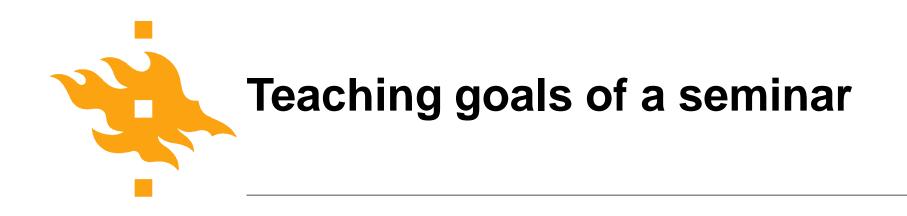

- task to make questions about the presentation
- can be before own presentation

8

Active participation during the meetings comments, questions, etc Presentation (obligatory) Grading based on Written presentation Oral presentation Participation in the discussions Study diary / paper reviewing / ...

9

The development of communication skills The development of intellectual and professional competence The personal growth of students (and the tutor)

source: Brown & Atkins: Effective teaching on Higher Education

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

Improving the presentation skills practice written and oral presentations Study new subject get an overview of the current trends learn some part in more details Learn the research methods used in that specific field

11

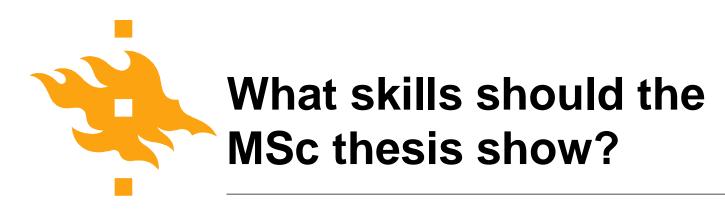

Some types of thinking

Analysing Logical reasoning Evaluating evidence or data Appraising and judging perceptively Thinking critically Synthesizing Speculating creatively Designing Arguing rationally Transferring skills to new contexts

Problem-solving

Department of Computer Science

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Ability to manage a large theme systematically, with a defined goal and valuation scheme in mind

Independent work

Research steps

Learning of the topic (search of information, critical reading)

Formation of a research question (single line focus)

Solution construction and evaluation

Coherent and complete written report (precise scientific argumentation and ease of understanding)

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

What types of MSc theses there are?

Surveys

Collection and critical evaluation of related works

Explorations

Empirical approach, evaluation, construction of recommendations

Designs

Small survey of related domains, combination of the findings to a design of a system, potentially construction, evaluation of the design

Always base your knowledge on articles published on scientific forums

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

www.cs.helsinki.fi

8.10.2013

- Journal articles
- Conference or workshop papers
- (Technical reports)

- PhD studies require some number of scientific publications to be done during the studies
- These will form the core of the thesis

- Different publishing schedules
 - Journal articles: several years from a manuscript to a published version
 - Conference or workshop articles: from few months to a year
- Different peer-reviewing processes
 - Level of refereeing (confidence on evaluation)
 - Journal, conference and workshop articles: reviewed by several objective referees
 - Technical reports and manuscripts: no peer review
 - At best, valuable feedback for authors

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

- Intended publication forum may influence the contents and form of the text
 - Length of the text
 - Layout and structure of the text
 - Approach/perspective to be taken: theoretical or practical
- Authors should also take into account
 - the readers of the forum and their background knowledge
 - relevant work published on the same forum

Questions and feedback session

 Now is your last chance to get answers to any unclear issues!

• Feedback: How to improve the course

 Remember to fill the feedback form for this course and all other courses as well – For every course during your studies!

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Internship 2014

(Use career services offered by Univ.)

- Your own responsibility not organised by dept
- HIIT&dept offer some positions
- application-based

 Companies announce positions, but accept open applications also

- Helsingin sanomat (may be)
- oikotie.fi
- via personal connections
- tko-äly rekry mailing list
- bulletin board at department

- General information
 - guidetoworkinginfinland.fi
 - www.mol.fi/mol/en/index.jsp
 - www.tek.fi (Harjoittelupalkkasuositukset)
 - Unemployment funding requires <u>voluntary</u> <u>membership in union or</u> unemployment cash

8.10.2013

Examination sessions:

- start sharp at the hour
- no bags near your
- turn of your mobile phone and put it in bag

You may have with you:

- pencils and rubber (and/or pens)
- small amount of snacks
- ID card (student ID is not official, but might be accepted)

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

Normally answers written to a 'concept paper' (folded A3-paper with grid)

-write name, student number, date, course name and your signature on every paper

- Start filling the folded paper as if it was a course book. (So first the cover, then turn open to left and fill left side, right side and finally the back cover)

-You can use multiple papers if necessary

-(On some courses, you might be asked to give answers to each question on separate sheet)

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

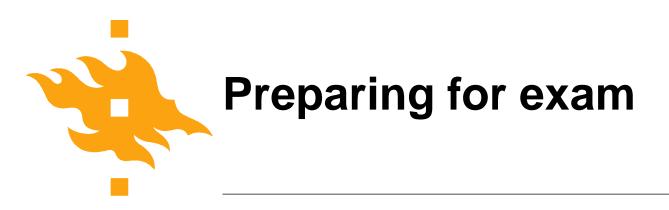

Faculty of Science Department of Computer Science

Not just overview, but justifications and reasoning also
Ofter questions require applying the knowledge, not just repeating

- Most courses: exercises give hints on the key points on the course

- A single right answer might not give you full points, if you have not explained how you reached the answer

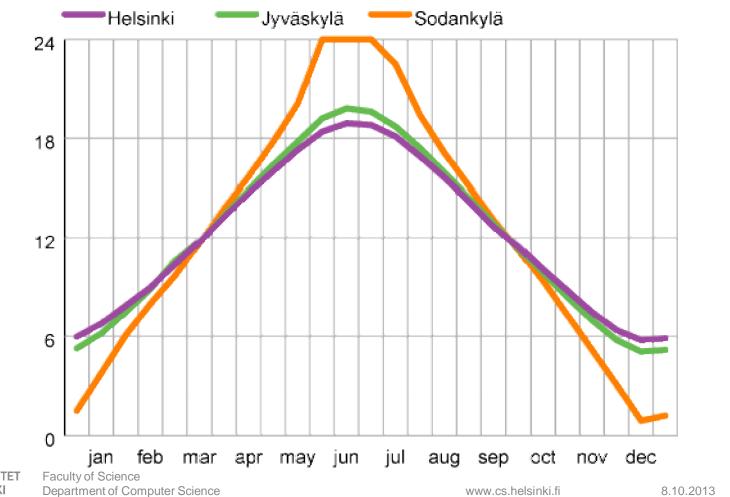

- Do the weekly exercises and relate them to the study goals of the course

- Understand the course content, both details and the 'big picture' memorising is not enough for a master's
- Study the slides and the exercise questions
- read and learn the book (but not just memorizing!)
- When available look at the older exams

24

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Finnish Winter is coming

- October: A lot of rain, first snowstorms, no snow cover, but can be icy

- November: Very short days and cloud cover, a lot of rain or snow, or wet snow, or... usually in Helsinki no snow cover

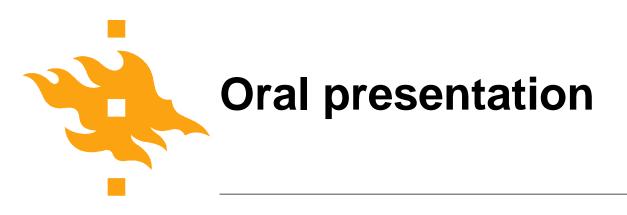

- December: Very, very short days, snow or wet snow, snow cover in Finland, might be also in Helsinki/Espoo

- January: Days slightly longer, snow cover in Helsinki also. Gulf of Finland ice covered

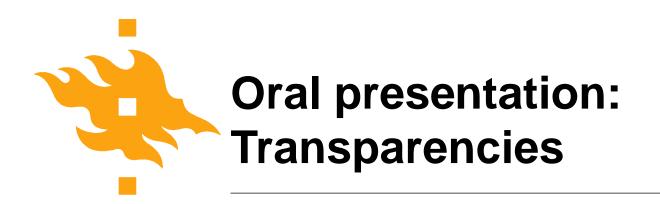

- February: Nice winter days, sun shine and blue sky, maybe skating above sea

- March: Nice winter days. The snow starts melting
- April: Days longer than night, Snow melts, still some snowstorms
- May: Long days, no snow, green trees and grass

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

- Prepare
- Clear goal and message
- Not everything in the paper to the presentation
- Focus on key points
- Make transparencies or some other visual support

key words, no sentences, mistsakes

Figures, pictures

Tables, lists

Numbers (used in the presentation)

Examples

Do not overfill one page

Avoid too small font size (this is 14), this is 18, this is 24, this is 12

32 points : automatically offered by PowerPoint

28 points

24 points: smallest useable in Auditorium

20 points

18 points: smallest useable in any presentation (occasionally too small)

16 points

14 points

12 points: Normal size in written papers

10 points: A bit small even for printed reports

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

www.cs.helsinki.fi 8.10.2013 28

Please, try to avoid full written sentences. They make the work for the audience very difficult. There is no time to follow the speech, because all the time and concentration goes to reading the slide.

This becomes even worse, if the presentation is directly read from the transparencies. There is no point in listening anymore. Also, the presenter eagerly uses very complex sentences that try to cover in one extreamly long sentence most of the material without loosing any details and facts.

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Example: Portable and handheld devices in a distributed system

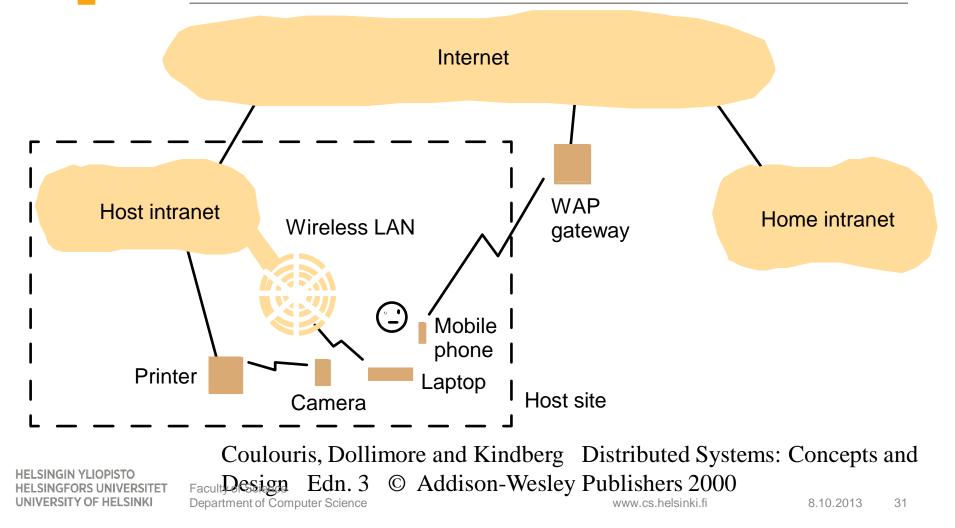

Devices Mobile phone Laptop Camera Connection points WAP WLAN USB Intranet, Internet

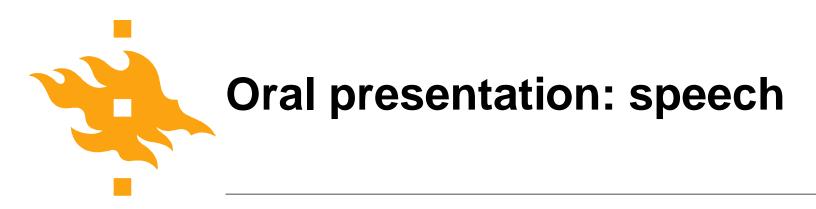

How to clarify?

Figure !

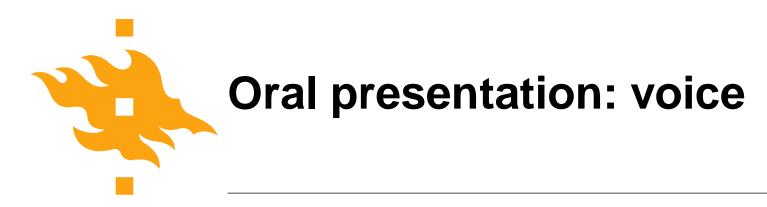

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Figure: Portable and handheld devices in a distributed system

Based on the transparencies Each item on the transparencies covered Nothing else is handled (except shortly) Other notes to remember facts, extensions presentation hints Use short sentences

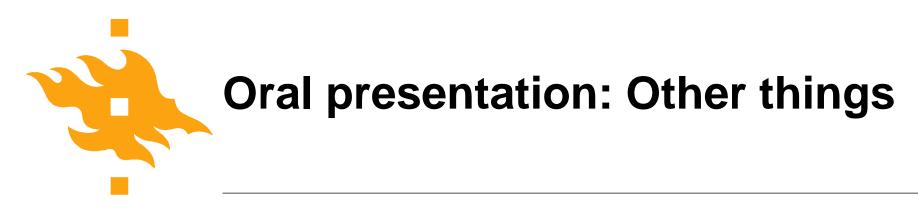

Clarity and strength avoid sitting speak to the furthest person Voice makes the structure Stressing

- importance
- new theme
- Pauses
 - new theme

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

33

Computer, transparencies, blackboard Notice the audience Movements *Hands*

Practice, practice,

NEVER write down the whole oral presentation

If uncertain, speak (and time) the whole presentation on your own or for a small audience

HELSINGIN YLIOPISTO HELSINGFORS UNIVERSITET UNIVERSITY OF HELSINKI

Faculty of Science Department of Computer Science

One last time: Examples of probing questions

Does that always apply? How is that relevant? Can you give me an example? Is there an alternative viewpoint? How reliable is the evidence? How accurate is your description? You say it is x, which particular kind of x? What's the underlying principle then? In what situation would this rule break down? What distinguishes the two cases?
