DIGITALKOOT

CURRENT PROJECT: 19TH CENTURY

Electrifying our cultural heritage

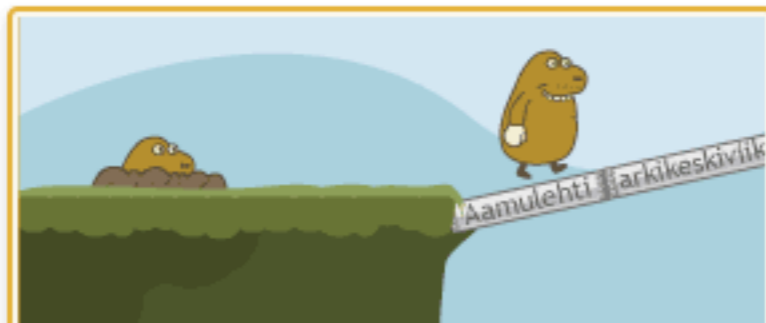

Digitalkoot is a joint project run by the [National Library of Finland](#) and [Microtask](#). Our goal is to index the library's enormous archives so that they are searchable on the Internet. This will enable everyone to easily access our cultural heritage.

You can help us by playing games.

Playing games in Digitalkoot fixes mistakes in our index of old Finnish newspapers. This greatly increases the accuracy of text-based searches of the newspaper archives.

 Log in with Facebook and play!

[What is Facebook?](#) | [I don't have a Facebook account.](#)

Current project

The current project consists of indexing the National Library's archive of the old newspaper [Aamulehti](#) from the 19th century.

So far 79,375 people have helped with the Digitalkoot web site. Volunteers have contributed a total of 24,000 (5,106,111 microtasks) to the project.
